" IT'S A GREAT FEELING TO FIND SOMEONE A NEW LIFE-CHANGING CAREER PATH "

BIO

An expert in the Cyber Security recruitment space, Scott has a passion for delivering experts who can help organisations prevent and navigate volatile attacks and breaches.

He specialises across Security Architecture, Data Loss Prevention (DLP), Governance, Risk & Compliance (GRC), Identity & Access Management (IAM), Incident Response & Forensic Analysis, and Penetration Testing, and has a deep network of over 5,000 cyber security professionals including CISO's, Heads of Cyber Security, and Cyber Security Managers.

Scott's approach centres around being community focused and led, and he prides himself on providing advice, guidance and insights. Scott ensures he is up-to-date on new thinking in the industry and constantly expanding his network. He is an active member in the Sydney Cyber Security community, attending events regularly, and is a member of both the ISACA Sydney Chapter and the Australian Information Security Association (AISA).

When he's not working, Scott indulges in his passion for motorsports. The discipline and consistency required to perform at his best is what he loves about this sport, pushing himself to the limit with every race, a mindset that translates into his dedication to providing the highest quality of service for the clients he partners with.
